

## Favor Repeal Of Prohibition Law

President Would Permit Wines And Beer Message To Congress—Railroads And Other Systems To Be Returned To Owners

(By The Associated Press)

WASHINGTON, May 20—President Wilson's message to Congress called for the repeal of the prohibition law so far as it applies to wines and beer only. He announced definitely that the railroad systems and telegraph, and telephone lines be returned to private ownership. Urged revision of the war taxes, particularly to abolish the manufacturers and retail sales excises and outlined generally the program respecting labor.

The message announced that President Wilson would address Congress on his return to the United States concerning subjects now engrossing the attention of the world during the anxious months since the armistice has been signed, and the international element which must form the subject matter to present peace treaties and of national action in the immediate future.

The president's messages said "There is no occasion for undertaking in the immediate future a general revision of the system of the import as there is no serious danger from foreign competition threatening American industries. The United States should have means for protecting itself whenever trade discrimination is made against it by foreign nations." The President said, speaking of labor. This does not mean a question of the efficient industrial production, but how men and women who do the daily labor of the world shall obtain progressive improvement in conditions of their labor, to be made happier, and to be served better by communities and industries which their labor sustains and advances, and how are they to be given their rights and advantages as citizens and human beings.

The President hoped Congress would find it possible to undertake the early reconsideration of the Federal taxes in order to make our system of taxation more simple, and easy of administration and the taxes themselves as little burdensome as they can be made, yet suffice to support the Government and to meet its obligations.
